

10MWh Off-Grid Solar Containerized Water Treatment Plant in Qatar

Overview

This system, developed by Fraunhofer ISE, provides permeate water for a 20-hectare farm, which produces vegetables, fish, and shrimp for groceries nationwide. Groundwater wells located near the ocean often encounter saltwater intrusion as they pump more and more water. With a rich history spanning over 10 years, Salzburg has continually embraced advancements in technology and engineering to deliver cutting-edge solutions that meet the evolving needs of the global market. From humble beginnings to our current position as a frontrunner in the industry, our journey. We are Salzburg Alet providing a solution for reducing the High Electricity Bill with 10016 Spanish Technologies. Our Spanish Engineer team has more has 15 Years of experience in the Solar Field. As the world's leading provider of smart solar and water treatment plant solution, salzburg delivers its all products, application & services. AQUALINE delivered a turnkey brackish water treatment system designed to support agricultural farms in remote desert areas of Qatar. Engineered for high reliability, the solution treats highly saline well water and converts it into irrigation-grade quality. 2- Customer Need Farms in remote desert. With Qatar aiming to generate 20% of its electricity from renewables by 2030, modular photovoltaic containers offer: "Like building blocks for solar farms, these containers enable plug-and-play energy solutions across Doha's urban and remote areas.
