Overview

Download specs, compare models, request quote. This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations. Unlike standard solar panel containers, LZY's mobile unit features a retractable solar panel unit for quick installation. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. A mobile solar container is a factory-built, transportable unit that integrates solar panels, battery storage, and power controls—providing plug-and-play, rapid-deploy clean electricity for remote sites, events, and emergency response.
