

Abnormal conversion efficiency of solar inverter

Overview

This paper proposes a method of determining a degradation of efficiency by focusing on photovoltaic equipment, especially inverters, using LSTM (Long Short-Term Memory) for maintenance. NREL is a national laboratory of the U. Department of Energy Office of Energy Efficiency & Renewable Energy Operated by the Alliance for Sustainable Energy, LLC This report is available at no cost from the National Renewable Energy Laboratory (NREL) at www.nrel.gov. Some of the power can be lost as heat, and also some stand-by power is consumed for keeping the inverter in powered mode.
