

Algeria s new solar panel manufacturer

Overview

Algiers, Algeria | April 22nd, 2025 — In a major boost to Algeria's renewable energy ambitions, the globally renowned Chinese solar technology firm LONGi has formally expressed its strong interest in launching a large-scale solar panel manufacturing project in Algeria. By including a local content clause, the North African nation aims to build an industry around renewable energy. By the end of 2023, Algeria had 437 MW of solar generation capacity installed, but the government has set a goal of reaching a production capacity of 4 GW by 2025. And honestly, it makes perfect sense.
