

Are there any new energy storage projects in Amsterdam

Overview

Recent local developments, such as Return's new battery recycling plant, GIGA Storage's large-scale energy systems, and Photon Energy's solar projects, show how Amsterdam is turning ambition into action on clean energy and sustainability. Amstelveen, 20 October 2025 GIGA Storage today officially inaugurates its third large-scale energy storage project. The company aims to install 4 GW of storage across Europe by 2030. The Giraffe project marks. SESA is a four-year (2021-2025) EU H2020 funded R&D project designed to combine innovative energy access solutions for a range of applications in both urbanised and rural contexts in Africa. The infrastructure, located in Western Port's area, is expected to last 20 years and has a storage capacity of 47 MWh, equivalent to powering 800 electric vehicles.
