

Does the country rent rooftop solar power

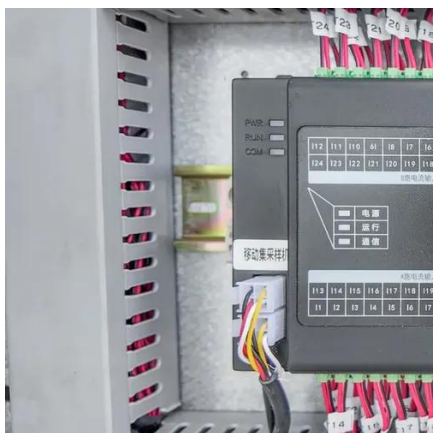

Overview

A growing number of third-party solar power providers are looking to rent roof surfaces from building owners in a designated area, install PV systems and sell the power generated to the local utility companies through pre-negotiated agreements. Black Bear Energy facilitated the industrial solar roof lease for STAG Industrial in the project shown here. The United States is. Solar rooftop leasing is one of the three basic ways you can make money from your rooftop with solar energy. Rooftop potential is not equivalent to the economic or market potential for rooftop solar—it doesn't consider availability or cost. Many areas offer attractive Renewable Energy Credits (RECs) that, when coupled with federal and local incentives, can make rooftop solar an attractive financial choice that is also good for the environment.
