

Electric vehicle adoption samoa

Overview

Samoa is taking a significant step towards sustainable transportation with the introduction of 76 electric vehicles, including charging stations across 16 sites. On October 3, 2024, the Climate Pathways for Island Transport (CAP-IT) Project Electric Vehicle Fleet were officially launched at the ONE UN House, Tunaimato. The 76 EVs, provided with the support of the Government of Japan, aim to enhance Samoa's green transport initiative and reduce emissions as part of the country's climate resilience efforts.
