

First solar iraq

Overview

com) – Iraq has inaugurated its first industrial-scale solar power plant in Karbala province, southwest of Baghdad, in a move aimed at reducing reliance on fossil fuels and addressing the country's chronic electricity shortages. Its capacity is expected to reach 75 MW within the next two moves, ahead of a final 300 MW target. Al-Sudani praised the efforts of the Ministry of Electricity and local authorities. Solar panels at Iraq's first large-scale solar power plant in Karbala. This project marks a significant step by the Iraqi government to expand renewable energy production, against the backdrop of the country's rich oil and gas.
