

# Guohua Solar Power Plant

## Overview

---

China has brought a massive offshore solar farm online - a full 1 gigawatt of photovoltaic capacity built at sea. The Guohua Investment Shandong HG14 Offshore Photovoltaic Project is now online and operating commercially, according to China Energy Investment Corporation (CHN Energy). Developed by Guohua Investment, a unit of China Energy Investment Corp (CHN Energy), a state-owned. China has taken solar power to the open sea by building the world's largest floating solar plant, and it's already changing how renewable energy can be deployed where land is scarce. The massive project, called HG14, is located about 8 km off the coast of Dongying in Shandong province.

## Guohua Solar Power Plant

### [CHN Energy's First 1GW Offshore PV Project Approved](#)

On July 7, CHN Energy's first gigawatt-level offshore photovoltaic (PV) project, the Guohua Investment Shandong HG14 Offshore 1GW PV Project, received approval from the State ...

### China commissions largest floating solar farm , heise online

According to the operator, China Energy Investment Corporation (CHN Energy), it is currently the largest facility of its kind. The Shandong Dongying Kenli Guohua HG14 Project is ...

### World's Largest Open-sea Offshore PV Project Begins Power Generation

The project, being the first and largest of its kind in the world, was developed by CHN Energy's Guohua Energy Investment Co., Ltd. and will serve as a model for the development of large ...

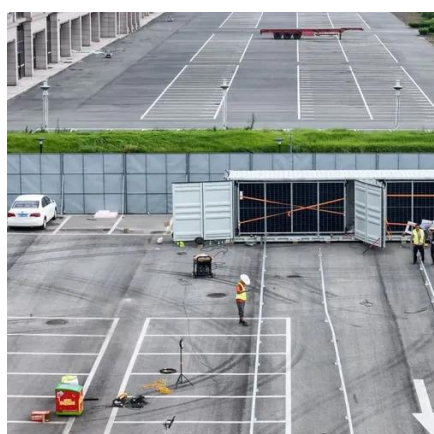

### China inaugurates world's largest open sea offshore solar plant online

With the operational launch of the 1 GW HG14 offshore photovoltaic project, China has touched a significant milestone in renewable energy expansion. This is the world's largest open-sea ...

## China commissions world's largest 1 GW open-sea offshore solar ...

China has fully commissioned the 1 GW HG14 offshore PV project, developed by Guohua Investment under China Energy Investment Corp. (CHN Energy), off the coast of Dongying, ...

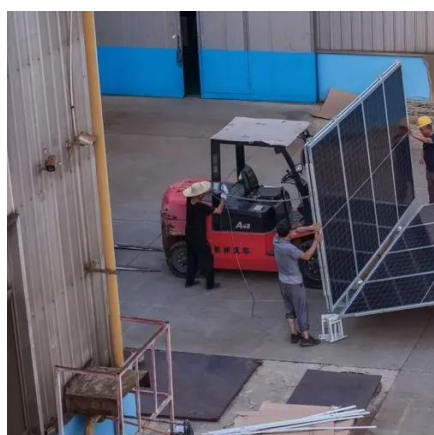

## China's giant open-sea solar farm is quietly rewriting its power grid

The 1 GW power plant at sea The centerpiece of this shift is the Guohua Investment Shandong HG14 installation, a 1 gigawatt array of photovoltaic modules planted in open coastal waters off

## China completes grid connection of world's largest open sea PV plant

CHN Energy declared a 1 GW solar power system that it built off the coast of China's Shandong province, on the open sea, fully connected to the grid. The facility consists of steel truss ...

## China brings the world's first 1-GW

## offshore solar farm online

China has brought a massive offshore solar farm online - a full 1 gigawatt of photovoltaic capacity built at sea. The Guohua Investment Shandong HG14 Offshore Photovoltaic Project is now ...

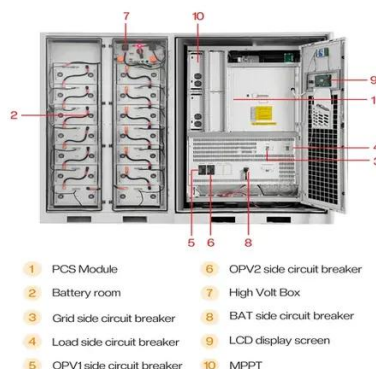

## World's largest offshore solar power plant brought online in China

China has commissioned the world's largest open-sea offshore solar power plant, bringing a 1-gigawatt (GW) photovoltaic (PV) installation fully online off the coast of Dongying in ...

## Solar Moves to the Sea: World's Largest Floating Plant Beats Land ...

China has taken solar power to the open sea by building the world's largest floating solar plant, and it's already changing how renewable energy can be deployed where land is scarce. The ...
