

Homemade photovoltaic panel folding

Overview

With the help of the internet and our own ingenuity we built an easy portable, collapsible, and storable solar panel mount out of nothing but PVC and zip ties. We also rigged up a quick-disconnect wiring system. Having solar panels that are portable and deployable might be better than rooftop, solar on camper vans, travel trailers, fifth wheels and RVs! In today's video, I show you step-by-step how to make a suitcase style solar panel. more Folding suitcase solar panels! Having solar panels. We're completely off-grid and hookup-free here at Gnomad Home, and without sunlight we can't work, or charge our phones, or write these epic vanlife guides. (Cue movie. These solar panel tutorials are made with an array of materials and for a variety of purposes, ensuring that anyone can find the solar panel tutorial they're looking for. How To Make Solar Panels For Small Electronics A few bucks less from your electric bill is more than enough motivation for. Anybody can buy a solar panel. How many people build their own?

Plus it folds up, which most commercially made panels don't do. I experimented with putting plexiglass covers over both halves of the panel, but in the end decided not to use them, so those steps are omitted from this Instructable.
