

# How is the Tongwei photovoltaic panel assembly

## Overview

---

Tongwei solar panels are integrated into rooftop and ground-mounted solar arrays to offset grid consumption and stabilize energy costs. By generating on-site renewable energy, manufacturers reduce their exposure to volatile electricity prices and enhance operational resilience. Silicon is extracted from silica sand, a material that makes up some 26% of the Earth's crust. Mining and refining silica into metallurgical-grade silicon is the beginning of the process, with.
