

How many watts does the JA Solar 570 photovoltaic panel have

Overview

JA Solar presents the JAM72S30-570/LR solar module, which provides an impressive output of 570 watts for optimum use of solar energy. A one-sided solar module with high efficiency for standard installations. When you buy the JA solar panel 570-595W series, you benefit from advanced MBB half-cell technology paired with n-type bifacial double-glass construction—delivering up to 26% cell conversion efficiency and a 6.3% bifacial gain over 30 years. You'll see superior low-irradiance response and a 100-watt solar panel will store 8.47. The JA Solar 570W Bifacial Solar Panel offers several advantages over conventional solar panels. 25/watts Contact the supplier about freight and estimated delivery time. Every payment you make on Made-in-China. Claim a refund if your order doesn't ship, is missing, or arrives with product issues.
