

# How many watts does the dominican solar street light have

## Overview

---

We supplied our flagship **130W Sunplus Solar Street Light**, customized with a high-definition **5MP CCTV Camera**. Integrated Smart Security: The 5-million-pixel camera is seamlessly integrated into the lamp body. This is a landmark "Smart City" project located on the famous **Malecon de Santo Domingo** in the Dominican Republic. The light emitted is influenced by LED efficacy, which determines how much illumination is. Solar street lights typically range between 30 to 200 watts, with variability based on the design and intended purpose, 2. wattage affects brightness and efficiency, 3. High-lumen LED chips, monocrystalline solar panels, MPPT charge controllers, and durable materials ensure long-lasting performance. For quiet residential paths, 10 to 20 watts might be enough.
