

# How to clean old dirt on photovoltaic panels

## Overview

---

Start at the top of the panels and work downward to avoid re-depositing dirt. Dip a soft-bristled brush into the solution and gently scrub the panel surface. This guide shows you how to clean solar panels safely and effectively—backed by expert tips and the latest best practices for DIY and professional options. While natural rainfall helps rinse away some dirt and debris, relying solely on it may not be enough—especially if you live in certain environments. Installing solar panels is one of the smartest investments American homeowners can make. To keep your solar panels working effectively, it's a good idea to wash them once or twice a year or whenever they're particularly dirty.
