

How to place a quantum solar generator

Overview

Installing a solar generator may seem like a daunting task, but with the right knowledge and preparation, it can be a smooth and rewarding process. This article will guide you through each step, offering helpful tips and advice along the way. The Quantum Generator is a block from the Advanced Solars mod. It is intended for map-makers and server admins that need a specific amount of permanent Energy Units. It has no crafting recipe and can only be obtained using cheats (/give, cheat mode in NEI, creative mode, and so forth). Its intended use is in adventure maps or other places where the designer of the map desires to give the player a. Next is figuring out how to use multiple batteries to store enough power. Yes I do believe that any building connected to your "Main Building" will in turn be powered if that Main Building is directly connected to the power sources. Only for "large" structures (prefab modules/cuboid rooms).
