

How to use the smart battery replacement cabinet

Overview

Slide the battery cover (the oval portion of the Lock labeled "SimpliSafe") off the device by pushing up on it. This will expose the batteries and allow you to replace them. Once the batteries have been replaced, put the battery cover back on and slide the compartment up until it. From the inside of your door, slide the battery cover up and off of the lock. You may need to remove screws holding the cover in place with a Phillips screwdriver. Follow the step-by-step guide below to power on the Smart Door Lock and replace the batteries. Replace batteries Note: For Premis Traditional, use screw driver to remove the interior cover How to Replace The Batteries In SmartCode 955?

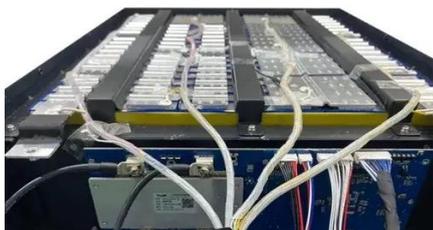

Install Batteries
a) Remove interior cover.
