

# Huawei Barbados New Energy Storage

## Overview

---

Barbados is a step closer to launching its first procurement project for Battery Energy Storage Systems to support the grid and unlock stalled Solar PV connections. The launch event, hosted by the Ministry. Under this contract, Huawei will deliver a comprehensive smart photovoltaic (PV) and energy storage system (ESS) solution, featuring a total capacity of 100MW and 290MWh Speaking at Friday's ceremony to launch the second phase of the BESS procurement, Minister of Energy and Business Senator Lisa. Why Battery Storage is Barbados' Make-or-Break Solution Let's face it--small island nations like Barbados have been getting the short end of the stick in the global energy crisis. Barbados is moving forward quickly with its battery energy storage plans, attracting strong investor. Barbados is moving forward with its national energy policy and resiliency plan, with an RFP for up to 60 MW of battery energy storage systems (BESS) set to be issued by the end of the month, according to Energy Minister Lisa Cummins. The projects will be built, owned, and operated by private. The Barbados National Energy Company Ltd.
