

# Huawei rooftop photovoltaic energy storage Thailand

## Overview

---

Huawei's FusionSolar solutions now serve over 80,000 Thai households, delivering up to 70% electricity savings while battery installations surge 580% in 2024.

Bangkok, May 26, 2025 - Amid Thailand's abundant solar resources, increasing environmental awareness, and the maturity of ICT-integrated. This project consists of 15 MW PV and 600 kWh ESS. The PV modules are installed on the rooftops of the campus's 41 buildings and are all equipped with optimizers. The ESS improves the PV self-consumption rate and provides backup power. The top Thai tech influencer, has turned his home and professional studio into a smart energy innovation—powered entirely by Huawei's solar PV, energy. “The next-generation of Huawei FusionSolar Residential Smart PV solution launched today will turn household rooftops into a power plant to generate clean energy that families can enjoy at all times. is accelerating solar energy application in Thailand by providing inverter and optimizer equipment for rooftop solar power generation systems to the Provincial Electricity Authority (PEA), the handover ceremony of which was held at the Provincial Electricity.
