

# Huawei s dedicated energy storage battery factory in Japan

## Overview

---

The facility will use four containerized Huawei LUNA2000-2. This is the first grid-scale battery storage project to be announced by i-mobile. The publicly traded company engaged primarily in online business has been involved in renewable asset development since 2016. Huawei Digital Power showcased cutting-edge energy solutions at two prominent venues: the Japan International Battery Expo (Battery Japan) and the Japan International Photovoltaic Expo (PV EXPO). During the event, a wide range of digital power solutions was showcased, including PV and energy. Huawei's Japanese energy storage battery is a pioneering technological endeavor that seeks to redefine energy management and sustainability. The battery showcases state-of-the-art innovations in energy density and efficiency. It operates effectively in diverse environmental conditions. I-mobile plans to commission its first grid-scale storage facility in July 2025, the company said on March 17, 2025. The 2MW/8MWh high-voltage asset will be located in Hiki District, Saitama Prefecture, in the Tokyo TSO area.

## Huawei s dedicated energy storage battery factory in Japan

### Huawei s dedicated energy storage battery factory in Osaka Japan

When will Huawei start selling a large-scale battery system in Japan? According to NikkeiAsia,Huawei will start selling the large-scale battery system for renewable energy storage in Japan in March 2022. ...
