

Intelligent energy fuel cell 2 4kW

Intelligent energy fuel cell 2 4kW

Intelligent Energy IE-Soar

Our IE-SOAR 2.4 fuel cell modules for drones deliver clean power from 800W up to 2.4kW with the capability of systems working in parallel to reach higher power outputs. This power range allows us ...

Intelligent Energy , NIST

Intelligent Energy is a fuel cell engineering business built on 30 years of PEM fuel cell development. It is focused on the development and commercialization of its PEM fuel cell ...

Hydrogen fuel cells for UAVs , Intelligent Energy

Our IE-SOAR UAV hydrogen fuel cells deliver clean power from 800W to 2.4kW, with the flexibility of integrating modules together to reach higher power outputs. This power range allows us to target the ...

Hydrogen Fuel cell manufacturers

Intelligent Energy's IE-SOAR(TM) 2.4kW is a hydrogen fuel cell module designed for fixed-wing, rotary-wing, and VTOL UAV applications where battery technology limits flight duration.

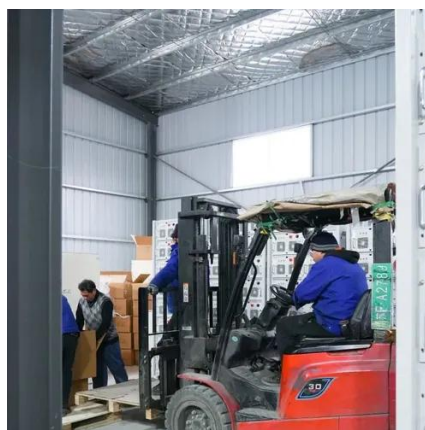

[Intelligent Energy Fuel Cell 2.4kW -- Rover documentation](#)

Because the fuel cell is constantly charging the battery, you will not see a significant change in battery voltage. Only once the fuel cell has used all of its hydrogen and you are using the battery exclusively ...

IE-SOAR 2.4kW , A fuel cell power module that directly replaces a

Ideal for VTOL and fixed wing applications. Direct battery replacement - 12S to 16S compatible. Automatically follows load demand just like a battery. 1000 hour commercial warranty.

70328_IE

Powering the hydrogen future™ with our outstanding fuel cells and service. IE-SOAR™ fuel cell power modules directly replaces a battery and give much longer flight times. Enable previously impossible ...

[IE-SOAR 2.4 hydrogen fuel cells for](#)

drones

Our IE-SOAR 2.4 fuel cell modules for drones deliver clean power from 800W up to 2.4kW with the capability of systems working in parallel to reach higher power outputs. This power range allows us ...

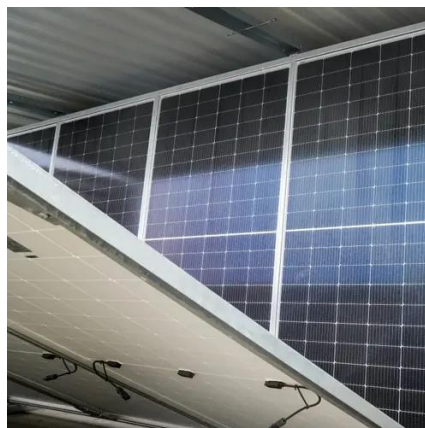

IE-SoarTM 2.4kW

Flight durations of over three times that provided by batteries have been achieved and fuel cells provide a natural solution for manufacturers moving to larger UAVs and heavier payloads.

Intelligent Energy's 2.4kW Fuel Cell Power Module Integrated into

LOUGHBOROUGH -- Intelligent Energy (IE), the market leader for lightweight Fuel Cell Power Modules (FCPMs), welcomes the news today that its 2.4kW FCPM has been integrated into ...
