

Investing over 1 billion in energy storage projects

Overview

Privately held MASS Group Holding plans to invest more than €1 billion (~\$1.18 billion) in large-scale battery energy storage projects in Romania after reaching an agreement with the Romanian government, Reuters reported on Wednesday. The Nexamp, Energy Vault, Generate Capital and NineDot Energy all announced major transactions to infuse more capital in their businesses. The company revealed plans to develop 2,500 MW of storage across four to. storage projects. This investment is expected to create 350,000 jobs by 2030. Through this investment, the industry is committed to supporting American battery manufacturing leadership, ensuring low-cost affordable electricity to fuel economic growth and American energy dominance.
