

Latvian Electric Battery Energy Storage Container

Overview

Utilitas, an Estonian renewable energy producer, has launched Latvia's first utility-scale battery energy storage system (BESS) with a capacity of 10 MW/20 MWh in Ventspils.

Latvian Electric Battery Energy Storage Container

LARGE SCALE BATTERY STORAGE FOR A STABLE LATVIAN ...

Containerized Battery Energy Storage Systems (BESS) are essentially large batteries housed within storage containers. These systems are designed to store energy from renewable sources or the grid ...

Latvia electricity backup battery

The battery system includes six battery containers, three inverter/transformer container and one distribution point container, providing a total electric capacity of up to 20 MWh.

Latvia: first BESS opens ahead of Russia grid uncoupling

In Latvia, developer Utilitas Wind announced the official opening of a 10MW/20MWh battery energy storage system (BESS) last week (1 November) in Targale, a village in Latvia's north ...

Energy Storage Container Production in Latvia: Powering the Green

As we approach Q4 2025, industry watchers are keeping tabs on Latvia's first gigafactory for battery cells. When operational, it'll slash import costs by 60% and create 800+ skilled jobs.

Utilitas inaugurates 10-MW battery in Latvia , Energy Storage News

Estonian renewable power and heat producer Utilitas has inaugurated the first utility-scale battery energy storage system (BESS) in Latvia, a 10-MW/20-MWh facility.

[NGEN enters Latvia with battery project buy, EUR 50m](#)

Riga, Latvia - Slovenia's NGEN Group is making a meaningful push into the Baltic energy market with a substantial investment in Latvia. The company is poised to acquire a battery energy ...

[Latvia's largest battery energy storage system unveiled](#)

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in ...

Latvia unveils first grid-scale battery

as it prepares to swap Russian

As the Baltic states of Latvia, Lithuania, and Estonia prepare to decouple their combined electricity grid from Russia, in favor of Europe, in February 2025, Latvia has activated its first utility

...

Latvia's Energy Landscape Evolves with New Battery Storage Project

Developed by Utilitas Wind, a subsidiary of Estonian energy company Utilitas, the BESS project is a EUR7 million investment. The system comprises six containerized BESS units, inverters, transformers, and ...

Utilitas Launches Latvia's First Utility-Scale Battery System

Utilitas, an Estonian renewable energy producer, has launched Latvia's first utility-scale battery energy storage system (BESS) with a capacity of 10 MW/20 MWh in Ventspils.
