

# Lg solar container battery cell

## Overview

---

Under the agreement, LG Energy Solution Vertech will supply 5 GWh of lithium-ion battery energy storage systems (BESS) for utility-scale projects, along with full lifecycle services. The systems will support Qcells EPC projects scheduled between 2028 and 2030. LG Energy Solution is a profitable company, expected to reach USD 27B revenue in 2024. The new 5-GWh partnership secures energy storage systems for Qcells that meet domestic content requirements, as LG Energy Solution's battery. provided to meet the diverse needs of customers worldwide. High-efficiency and high-stability battery technology that maximizes renewable energy use and supports grid reliability.
