

Longi photovoltaic panels released

Overview

SHANGHAI, June 12, 2025 /PRNewswire/ -- On June 11, LONGi officially released its newly developed HIBC technology and mass-produced module products at the 18th (2025) International Solar Photovoltaic Exhibition (SNEC). HIBC creates a precedent in the industry, achieving a power of over 700W for the. Chinese solar manufacturer Longi unveiled a new PV module with 25.9% efficiency at the 2025 SNEC trade show this week in Shanghai, produced using both low- and high-temperature passivation techniques. Chinese solar module manufacturer Longi unveiled a new solar module this week at the SNEC 2025. PVTIME - On 11 October, LONGi, the PV giant, unveiled its brand new generation Hi-MO X10 solar module at a press event held at the ATP Masters in Shanghai. The latest solar panel, based on its HPBC2.0 technology, opens a new chapter in the mass production of 24. With manufacturing facilities and sales offices in more than 150 countries and regions worldwide, including Asia, America, Australia, and the Middle East, Longi has established a strong reputation for its.
