

# Malaysia Energy Storage New Energy Battery

## Overview

---

KULIM, Kedah, Malaysia—July 1, 2025 — Malaysia's ambition to become a leading green energy hub in Southeast Asia has received a monumental boost with Chinese battery giant Eve Energy's announcement of a \$1.2 billion investment in a new energy storage battery project, and its partners signed a contract for the Kuala Lumpur International Airport (KLIA) solar-plus-storage project, with Malaysia's Deputy Prime Minister Fadillah Yusof in attendance to witness the milestone. This marks EVE Energy's. KUALA LUMPUR: EVE Energy Co. This marks EVE Energy's. Why are Battery Energy Storage Systems suddenly stepping out from the shadows and into the spotlight (and powering said spotlight) — especially here in Malaysia?

To put it simply: because the way we consume electricity is changing, and batteries are the glue holding the future together. The project will facilitate the company's overseas expansion, and will also help it mitigate the risks posed by escalating international trade friction.

## Malaysia Energy Storage New Energy Battery

### [EVE Energy Enters Malaysia with KLIA Storage Project](#)

EVE Energy signs KLIA solar-plus-storage project, deploying 628Ah batteries to support Malaysia's energy transition goals.

### Malaysia's energy gets smarter with the rise of grid-scale battery storage

The most recent milestone came in late 2024 when Sarawak Energy commissioned a 60MW/82MWh BESS in Sejingkat, Kuching. This project, co-located with a retiring coal power ...
