

Manufacturer of 75kW Lithium Battery Cabinets for Data Centers

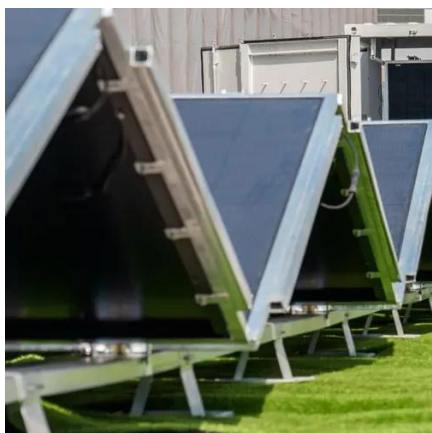

Overview

COLUMBUS, Ohio-- (BUSINESS WIRE)--Meeting the urgent need for solutions supporting high-density computing in increasingly crowded data center facilities, Vertiv (NYSE: VRT), a global provider of critical digital infrastructure and continuity solutions, today introduced Vertiv™. COLUMBUS, Ohio-- (BUSINESS WIRE)--Meeting the urgent need for solutions supporting high-density computing in increasingly crowded data center facilities, Vertiv (NYSE: VRT), a global provider of critical digital infrastructure and continuity solutions, today introduced Vertiv™. The Vertiv™ EnergyCore Li5 and Li7 battery systems deliver high-density, lithium-ion energy storage designed for modern data centers. Purpose-built for critical backup and AI compute loads, they provide 10-15 years of reliable performance in a smaller footprint than VRLA batteries. While Vertiv was an early adopter of lithium-ion batteries for the data center, this marks the first offering with Vertiv's own battery management. Factory assembled with LFP (Lithium-Iron-Phosphate) battery modules and Vertiv's internally-powered battery management system, Vertiv EnergyCore cabinets are available globally and are qualified for use with most current and legacy three-phase Vertiv™ uninterruptible power supply (UPS) systems.

Manufacturer of 75kW Lithium Battery Cabinets for Data Centers

Lithium-Ion Battery Storage Cabinet

The Americase Lithium-Ion Battery Storage Cabinet provides safe, scalable, and compliant storage for lithium-ion batteries in data center environments. Designed to exceed IFC24 fire-containment ...

Fully populated, high power lithium battery cabinets for fast, cost

Meeting the urgent need for solutions supporting high-density computing in increasingly crowded data centre facilities, Vertiv, a global provider of critical digital infrastructure and continuity ...

Vertiv Introduces Fully Populated, High-Density Lithium Battery

Meeting the urgent need for solutions supporting high-density computing in increasingly crowded data center facilities, Vertiv (NYSE: VRT), a global provider of critical digital infrastructure ...

[Vertiv\(TM\) EnergyCore, Lithium Ion Battery Cabinet](#)

Built with lithium-ion batteries, it offers longer performance and more cycles than VRLA batteries. With a fully loaded cabinet shipped to your location and no onsite wiring needed, it saves on deployment ...

Vertiv's lithium-ion battery cabinet works with large capacity UPS

While Vertiv was an early adopter of lithium-ion batteries for the data center, this marks the first offering with Vertiv's own battery management system. The cabinet is ready to use with most current and ...

[HPL Lithium-Ion Battery Energy Storage System , Vertiv\(TM\)](#)

Designed by data center experts for data center users, the Vertiv(TM) HPL battery cabinet brings you cutting edge lithium-ion battery technology to provide compelling savings on total cost of ownership, ...

Vertiv Introduces Fully Populated, High-Density Lithium Battery

Vertiv Introduces Fully Populated, High-Density Lithium Battery Cabinets for Fast, Cost-Efficient Installation in HPC Data Centers

Vertiv Launches High-Density Lithium

Battery Cabinets for HPC Data Centers

Meeting the urgent need for solutions supporting high-density computing in increasingly crowded data center facilities, Vertiv, a global provider of critical digital infrastructure and continuity ...
