

Microgrid pilot progress

Overview

The 2025 Global Energy Resilience Report shows a 67% spike in microgrid pilot installations since last year - but what's driving this sudden surge?

Wait, no - those 2025 numbers might actually be conservative. At Microgrid Knowledge, we write plenty of stories about the power resilience that on-site power delivers during cataclysmic events. And we also cover those which are built for every day, not just the rainy day. Here is a rundown of eight microgrid. The Office of Electricity announces 14 projects selected through the Community Microgrid Assistance Partnership (C-MAP) to advance microgrid innovations to bring energy reliability and affordability to remote areas. This pilot project, recommended by the PowerPath DC Pilot Projects Governance Board, seeks to modernize the District's energy. NLR has been involved in the modeling, development, testing, and deployment of microgrids since 2001. It can connect and disconnect from the grid to. Pursuant to Public Utility Commission of Oregon (OPUC or Commission) Order No. 18-290, Portland General Electric Company (PGE) submits its fifth annual report on the progress of its energy storage proposal which includes: Camino del Sol (formally named Baldock), Coffee Creek, Microgrid pilot, Port. CenterPoint Energy Houston Electric has sought Texas PUC approval for a 2026-28 system resiliency plan CEHE is not proposing a system resiliency plan cost recovery rider under the plan CEHE proposed to defer distribution costs of the system resiliency plan for future recovery in a rate case or DCRF.

8 Promises Fulfilled in 2024: Significant New Microgrid Projects Move

This year, MGK covered five stories around new microgrids within U.S. Army installations. The military branch has a climate strategy calling for a microgrid at nearly every installation by 2035, and the ...

Microsoft Word

The Microgrid Pilot Project completed its first microgrid at the Beaverton Public Safety Center (BPSC), commissioned in September of 2020. The second microgrid at the Oregon Military ...

CenterPoint-TDU Seeks Approval For 2026-28 System Resiliency ...

As part of the plan, CEHE proposes a utility-scale microgrid pilot. The proposal would allow CEHE to test a "finite" number of microgrids, which CEHE "currently estimate [s]" as 3-5 ...

U.S. Department of Energy Announces \$8M for Microgrid Innovation

The Office of Electricity announces 14 projects selected through the Community Microgrid Assistance Partnership (C-MAP) to advance microgrid innovations to bring energy reliability and ...

[Despite innovative action in microgrid policies, states ...](#)

A new report by Think Microgrid says most states are doing an insufficient job at deploying microgrids despite developing microgrid roadmaps.

[Microgrids , Grid Modernization , NLR](#)

NLR is collaborating with the San Diego Gas & Electric Co. to model a microgrid in Borrego Springs, California, and evaluate how a microgrid controller with advanced functionality ...

Global Microgrid Pilot Programs: Powering the Future of Energy

As climate disasters knock out power grids from Mumbai to Miami, global microgrid pilot projects have become the energy security lifeline we've all been waiting for.

[Transactive Neighborhood Renewable](#)

Microgrid Pilot Project

The Commission seeks an expert in microgrid development to design and implement this demonstration project over a period of up to five years, including at least two years of operational demonstration.

Advancements and Challenges in Microgrid Technology: A ...

ABSTRACT The concept of microgrids (MGs) as compact power systems, incorporating distributed energy resources, generating units, storage systems, and loads, is widely acknowledged ...

Pilot testing of a GPS-based autonomous synchronized microgrid ...

...

An independent microgrid, comprised of several grid-forming inverters, has been successfully demonstrated. These inverters synchronize with an accurate internal clock corrected by ...
