

Off-grid three-phase solar container price and product warranty

Overview

There is a price break on “Watertight” containers, Subtract \$2,000 from the total price for 20', and \$4,000 for 40'. What's the warranty?

RPS offers a 2 Year warranty on the solar panels, solar panel roof mounting and entire Watersecure system (wiring, batteries, inverter). Off-Grid Solar Containers transforms 20-foot shipping containers into complete, turnkey electricity generators—engineered for the places where conventional infrastructure can't reach, and built for those who refuse to compromise on reliability. Born from years of solar expertise at Danger Electric. 3KW solar power system (off-the-grid, standalone) is the obvious alternative to one that is grid-tied. For homeowners that have access to the grid, off-grid solar systems are usually out of question. All sites for the panels are identified in advance to ensure there is sufficient space to accommodate the panels. This ensures quality. Kindly Reminder□ The Above System Configuration For Initial Designing, The System Configuration Are Subject to Changing Depends on Your Final Installation Conditions and Requirements.
