Photovoltaic panel removal costs

Overview

The average cost to remove solar panels from a roof in 2025 typically ranges between $300 and $750 per panel, depending on factors like system size, roof complexity, and local labor rates. Some contractors may also charge a base fee, often around $500, or have a minimum project cost of about. The price tag for solar panel removal isn't random. Panel count reigns supreme as the biggest cost driver. The cost for removal alone falls at the low end of this price range, while the cost to remove and reinstall solar panels falls at the high end. Check with a local pro for your specific job.
