

Photovoltaic panel unpacking support processing

Overview

This manual provides comprehensive guidelines for the safe and efficient Unloading and storage of solar photovoltaic (PV) modules manufactured and supplied by JAKSON Engineers Limited. Adherence to these procedures is essential to maintain product integrity, ensure personnel safety, and comply with. Prior to unpacking, store pallets in a covered, dry and ventilated location. While unpacking, position pallets next to a solid, self-stand-ing support structure. Proper photovoltaic panel unpacking requirements and specifications aren't just red tape; they're the difference between a 25-year energy workhorse and an expensive glass paperweight. You can find this and other related contents on Jinko's official web-site: www.
