

# Port-use outdoor telecom enclosure hybrid type

## Overview

---

A hybrid outdoor enclosure telecom is a weatherproof cabinet designed for telecommunications equipment that integrates multiple systems —such as power supply, batteries, cooling, and network hardware—into a single outdoor enclosure. Featuring a robust steel structure with IP-rated protection, it ensures reliable operation against dust, rain, heat. vating to anticipate and meet all of your connectivity needs. The engineered flip-tray mechanism offers dedicated fiber access, optica path testing becomes easier, and maintenance becomes faster. The spring-loaded. These products offer unique maintenance-free protection against direct lightning currents and protect up to 12 circuits, protecting up to six remote radio heads, and also provide a connection for fiber pairs. With proven expertise in system integration, Westell also manages the details for design assistance, planning, thermal management. The Hybrid outdoor cabinet offers a streamlined alternative to traditional POP (Point of Presence) stations for telecom applications. Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies.

## Port-use outdoor telecom enclosure hybrid type
