

Praia energy storage for peak shaving

Overview

Battery energy storage systems play a central role in enabling peak shaving. Discharge during peak hours: It supplies power to your loads, reducing your grid usage. Whether you're managing a factory's fluctuating load or trying to optimize your home's solar setup, battery-based peak shaving offers a smart, scalable way to take control of your power bills and reduce grid stress. In this guide, we'll walk you through everything you need to know about peak shaving, which will become important in the future's smart grid. The goal of peak shaving is to avoid the installation of capacity to supply the peak load of highly variable loads.
