

# Ranking of regions producing photovoltaic panels in China

## Overview

---

In this article, we will explore the key manufacturing hubs that fuel China's solar industry, highlight the top 11 solar panel manufacturers in China, and provide an overview of the major trade fairs that are critical for connecting with these industry leaders. In 2024, China accounted for about 57% of new global solar and wind additions, which is double the amount of renewable energy generated compared to regions like the US, Europe, and India. 2% of the nation's electricity was generated from renewables (excluding hydro) in 2024, which includes. China is the global powerhouse in solar panel manufacturing, driving the industry with unparalleled production capabilities and cutting-edge technological advancements. Rapid solar capacity expansion overwhelms the grid, PV manufacturers compete for market shares, and then large target markets slap import tariffs on Chinese PV products, taking off their competitive edge.
