

Reduced carbon emissions abkhazia

Overview

By ratifying the Paris Agreement, Kazakhstan has committed to reduce greenhouse gas emissions by 15% of 1990 levels by 2030, and by 25% if additional financial and technical assistance is received. Development Strategy of KMG for 2022-2031, and the Emissions Management Policy within the KMG group. Kazakhstan has pledged to reduce its GHG emissions by 15–25% by 2030. Kazakhstan enhanced its long-term climate ambition by enshrining its net zero by 2060 target into law in February 2023, but then failed to increase short-term ambition in its updated NDC submission to the UNFCCC in June 2023, leaving its previously modest emission reduction targets for 2030. To help accelerate their progress towards Sustainable Development Goal (SDG) 7, which aims to ensure access to affordable, reliable, sustainable and modern energy for all, SDG 7 Roadmaps for Kazakhstan and Armenia have been developed under a joint UNDA project implemented by ESCAP and UNECE. As per the experts believe that with the proper policy measures, financial support, and incentives for green business development, Kazakhstan can become carbon neutral by 2060.
