

Shashi Solar Photovoltaic Power Generation

Overview

Shanghai has approved the Fengxian 1# offshore photovoltaic project, the first commercial-scale solar-wind hybrid of its kind in China. The move marks a major step forward in the city's efforts to build a modern maritime hub powered by clean energy. China's existing residential building area is more than 700 billion sqm, bringing the cumulative installed capacity to 707 GW. Among the available technologies, rooftop PV is the inevitable trend of the coming. Shanghai JINSUN New Energy Technology Co. is a renowned and highly respected manufacturer and agent of new energy equipment in China. We specialize in wind power generation systems, photovoltaic power generation systems, wind-solar hybrid power generation systems, battery energy storage. Shashi offers a variety of options for acquiring solar energy, including local companies, online platforms, government incentives, and cooperative initiatives. The region has witnessed an upward trend in the adoption of renewable energy, particularly solar, due to its numerous advantages including.
