

Solar light bracket equipment installation

Overview

☐☐ We're sharing a full demonstration video of the solar mounting bracket installation process. Each system has unique advantages and requires specific components. Get this wrong and you could end up with a rooftop breakdown, wobbly panels or worst still a leakage. By making your own mounting system, you can save on. Believe it or not, it's a lot easier to install a solar light than you might think. Improper installation is not the responsibility of Greenshine New Energy.
