

Solar power generation on Mount Bagang

Overview

At the high altitude of 5228 meters in the "forbidden zone of life", a groundbreaking "world's highest" photovoltaic power generation project was successfully connected to the grid for power generation. (-107), Image is a portion of my walk when I walked to Mt. Bagang and climbed to some height to take pictures. I saw tourist traffic coming and going to the east to the pine forested area on the north shore of the new Mapanuepe Lake (not in picture); I learned a tourist spot, called "New. China Huadian and PowerChina have completed the world's highest solar plant by altitude, a 100 MW facility in Tibet, paired with 20 MW/80 MWh of battery storage.
