

The English name of JA Solar s photovoltaic panels

Overview

JA SOLAR stands for durable, high-performance PV modules that generate first-class energy yields. With our broad product portfolio, we offer sustainable and innovative solutions for residential, commercial and utility projects. With this system, DC electricity is converted into AC by an inverter and monitored by a meter box. The generated electricity can be used by the household or sold. Chinese company JA Solar was founded in 2005, has branches in 20 countries around the world, has 12 manufacturing facilities, and supplies its products to over 135 countries. The overall capacity supplied by the company is 80 GW. is a leading manufacturer of high-efficiency photovoltaic solar panels, based in Shanghai, China with several global offices, including one in San Jose, California.
