## Overview

---

The M Series panels — the most expensive — have the highest performance. Five brands stood out: Moxeon, VSUN, REC, Qcells, and Canadian Solar. Each scored well overall, but the utility solar industry continues its shift toward larger-format, higher-wattage modules, with the leading edge of solar technology now pushing beyond 750W. While early leaders such as Trina Solar, Jinko Solar, Canadian Solar, Risen Energy, and JA Solar laid the groundwork for high-power panels. In this article, we list the top 12 solar PV panel manufacturers we vouch for. These 12 suppliers are known for their durability, warranty strength, and global reputation. At the time of publishing, all our top picks have a maximum efficiency rating of.

## The most expensive brand of photovoltaic panels
