

UPS battery cabinet relocation

Overview

Can you move a UPS with the batteries installed?

No, and you should never allow a mover to do so. Remove the terminal cover from the left side of the battery breaker. Disconnect and remove the DC cables, N. Effortlessly handle UPS relocations and disposal with our comprehensive service, including professional assistance for seamless UPS relocation and proper disposal of UPS units and batteries, adhering to environmental regulations. Generator relocations. At Mitsubishi Electric, we have the products and expertise to guide you through battery and battery cabinet/rack decisions to promote the life and advancement of your backup power system. Unlike packing books or disassembling furniture, moving Uninterruptible Power Supplies (UPS) and inverters is a highly specialized task. When Uninterruptible Power Supplies and UPS batteries require moving to another location onsite or another site completely, The UPS Team Ltd are ideally positioned to assist. Unlike many other UPS companies, The UPS Team Ltd will not subcontract our works to 3rd party companies and only uses.
