

Uninterruptible power supply for Niue data center

Deye inverters and Deye batteries are more compatible.

Overview

This document provides guidance on design considerations for the application and integration of Uninterruptible Power Supply (UPS) equipment within data center environments. Niue, a small island nation in the South Pacific, faces unique energy challenges due to its remote location and limited grid infrastructure. At Mitsubishi Electric, we understand the risks associated with downtime in data. ned to protect and secure customer data 24/7/365. The critical systems that sustain your business operations can't go down. A key megatrend for over a decade already, digitization affects all areas of our lives.
