

Ville neuss plug-in electric vehicles phevs

- ☑ High energy density and long cycle life
- ☑ Modular structure

- No need to replace the battery
- Shorter charging time
- Meets 99% EV car

Overview

A plug-in hybrid electric vehicle (PHEV) or simply plug-in hybrid is a type of vehicle equipped with a rechargeable battery that can be directly replenished via a plugged-in external source, in addition to charging internally by its on-board engine-powered generator. While PHEVs are predominantly used for short-distance travel, there are also plug-in hybrids designed for longer-range travel.
