

# Which photovoltaic panel company provides free maintenance

## Overview

---

Solar O&M plans protect your solar panel system and address problems promptly so you don't lose out on energy generation. That's why our Sunrun Solar Subscription Plan includes the industry's most comprehensive maintenance, monitoring, and repairs program. We set the standard with unparalleled daily system monitoring, a commitment few can match. Our proactive approach not only spots issues before they become problems. But O&M plans include maintenance that's not typically covered under homeowners' insurance or equipment warranties, like pest control and panel cleaning. And just like health insurance covers our annual check-ups, O&M plans include regular site visits to ensure your solar panel system is in tip-top. Maintenance ROI is Substantial: Professional solar panel maintenance typically pays for itself within 2-3 years through improved performance (5-15% increase) and avoided repair costs (\$500-\$2,000 over system lifetime), making it a smart financial investment for 2025. Our Solar Repair Services technicians address issues. Suntek services all makes and models of solar energy systems including Solar Photovoltaic Systems (PV Solar) and Solar Thermal Systems (pool heating and domestic water heating).
