

Will installing photovoltaic panels damage the roof

Overview

For most homeowners, installing solar panels will not result in roof damage as long as your solar installer is a licensed, qualified professional and your roof is in good condition. In this comprehensive guide, we will explore the nine most common problems that can arise from solar panel installation on roofs, and provide practical solutions to address each one. Professional installers ensure they're securely mounted, using roof-friendly methods to avoid leaks or structural issues. However, improper installation can lead to problems, which is why you.
